Maku Mazakpe

Startup Software Engineer || KUSAIDIA
Accra, Greater Accra Region, Ghana

Summary

Maku Mazakpe | Startup Software Engineer | Building Innovative Solutions

About:

I

Driven Software Engineer with more than half a decade of experience crafting robust and scalable solutions across web and Android platforms. Skilled in both backend and frontend development, I excel in creating cohesive user experiences and tackling complex workloads.

Key Strengths:

- Full-Stack Proficiency: Backend expertise in Django, Node.js, Docker, PostgreSQL, and Celery.
- Frontend experience with native Android (Kotlin/Java) and cross-platform (Flutter) development.
- Agile Methodology: Adept in Scrum/Agile processes, emphasizing clean and maintainable code.
- Collaborative Mindset: Proven ability to work effectively with teams to deliver high-performing solutions.
- Continuous Learning: Passionate about staying up-to-date with the latest technologies and trends in software development.

Let's Connect:

Excited to collaborate on innovative projects and contribute to a growing team. Let's connect to discuss how my skills can benefit your organization.
